Digitally transforming businesses for the better

Vacancy CSSA role – Utrecht, NL

As a Pega Consultant, you will collaborate with our team at the Labb hub in Utrecht or work remotely, alongside some of Europe's most experienced Pega consultants. Your primary mission will be to convert our clients' most intricate needs and challenges into high-performing Pega solutions.

What do you have to offer?

- 3+ years Pega experience
- Experience leading teams of 3+
- Component design and delivery responsibilities
- Component quality responsibilities
- Familiar with Pega performance tools
- Good understanding of enterprise architecture concepts
- Experience integrating Pega with other systems

What do we have to offer?

- Permanent contract
- Competitive salary
- Flexible working hours
- Possibility of a lease car
- Mobile
- Laptop
- Pension contribution
- Annual bonus
- Mentorship scheme
- Net expense allowance

What will you do?

- At least a 36 hours working week
- Hybrid work (3 d/week work location)
- You develop the most exciting Pega applications
- Collaborate with the most experienced Pega consultants in Europe
- Assign the user stories to the team members

Job Requirements

- Exposure to a variety of technologies, including, but not limited to, WebSphere or WebLogic, J2EE (JSP, Servlets, EJB, XML, Java), .NET, Oracle, DB2, and MS/SQL. With specific expertise in some of the above (recommended, not essential)
- CSSA certification
- Strong team player with good communication and analytical skills
- Proficient in shaping requirements to out of the box features, and with reusable assets in mind
- Experienced estimating effort at component and story level with appropriate RAID

- Dutch speaking is a plus

**Car leases are available; however, they are subject to availability upon request and may also be offered through salary sacrifice arrangements*
